Continued Examination

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 1, 2004 has been entered.

Status of Application

2. Claims 1, 4-8, 13-23 and 25-27 are pending.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Fulton on August 27, 2004.

4. The application has been amended as follows:

Claims 26 and 27 have been canceled.

These claims have been canceled because they are duplicates of claims 20 and 22, respectively.

Allowable Subject Matter

5. Claims 1, 4-8, 13-23, and 25 are allowed.

Comments

6. Applicant's comments filed with the request, and with the previously submitted amendment after final rejection have been carefully considered. In this case, the examiner agrees that the prior art of record fails to teach each and every limitation of the claims as now recited. While the modifying reference to Dismuke teaches the use of pockets applied to a flexible protective cover, this reference fails to teach the plural pocket or storage compartment arrangement as now more particularly claimed. Further references of pertinence not previously cited include Ekeson, Morgan, Brennan and

Martin, which teach carriers or covers having pocket configurations, although none these carriers teaches the specific pocket arrangement and associated functions as set forth by applicant in all of the independent claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ekeson (US 3,729,038), Morgan (US 4,350,274), Brennan (US 5,046,860), and Martin (US 5,826,714) teach flexible carriers or covers having various pocket configurations.
